

Fastrax Saddlebag Set and Tail Bag

If you're looking for some easy-to-use bags that will match any color bike, Fastrax is the answer.

DOWCO's Fastrax Sport and Adventure Luggage gives you a good amount of storage, waterproof zippers, expandable storage, and an exclusive color matching system, that allows riders to add one of nine included interchangeable color inserts to their bags.

These saddlebags and tail bags are constructed from rugged 1680-denier nylon with reflective material for safety on the road. All bags feature internal storage pockets, external storage areas with draw-tite shock cord to secure items in place, waterproof lockable zippers, sewn-in rain hoods, lockable

security cables, four inches of adjustable expansion, backpack slings and molded handles for carrying convenience, and no-slip scratch resistant padded base and

straps.

In addition, each Fastrax saddlebag features a clear electronics storage area with multiple cable ports for easy access to audio and electronic devices. Saddlebags also include an aluminized heat shield for protection from any exhaust system. The tail bag includes an external dry bag that attaches to the top of the tail bag and features heat-taped seams and a waterproof zipper. All Fastrax bags are covered by a lifetime warranty against manufacturing defects.

Dowco Fastrax saddlebags list at \$169.99, and tail bags list at \$109.99. These bags will last a lot of miles, given their construction and materials.

For additional information, or to locate a dealer near you visit dowcopowersports.com or call 800.558.7755.

Note: The bags reviewed by the BMW Owners News were given away as door prizes at the 2007 Falling Leaf Rally in Missouri.
