

# CRESTLINER PREMIUM BOAT COVERS

Spend More Time On The Water & Less Time Securing Your Cover With Dowco's All-New, Patent Pending Crestliner® Boat Covers!

Now Available on select 2015 Crestliner Boats.

## Exclusive CoverLift™ Water Shedding Technology

The all-new, patent pending CoverLift™ system is an innovative built-in cover support system that means no poles, no crawling under the cover, and no pole failures leading to cover or boat damage. A heavy-duty rope ratchet and woven strap support system is securely sewn into the underside of the cover. Once the cover is locked into the boat's gunnel, simply pull on the rope ratchet to create tension on the straps underneath. The straps rise up creating a ridged tent effect so that water will run off the cover and not puddle. This system is designed to be used for both storage and towing. CoverLift is available on select Crestliner Boats with a walkthru windshield.

- ▷ Protects the boat's interior from dirt, water and UV light
- ▷ Specifically engineered for trailering
- ▷ Integrated vents allow moisture to escape while allowing the cover to compress while trailering
- ▷ Access panel with hook & loop closures allow for cleat & fuel fill access
- ▷ ClimaShield® Plus fabric is durable, water resistant and breathable with excellent UV & fade resistance, and backed by a 5-year warranty

SECURE METAL STRAP

CLEAT & FUEL ACCESS PANEL

CLIMASHIELD® PLUS BREATHABLE FABRIC

MOISTURE / TRAVEL VACUUM VENT

BUILT-IN RATCHET FASTENING SYSTEM

**Cover Support System**  
Integrated lifting straps & ratchet system.

**Straps Ensure Water Run-Off**  
Creates a "raised tent" to direct water run-off.

**Easy to Install CoverLift™ Straps**  
Metal gunnel strap connectors provide a secure, positive attachment.

## WHY DOWCO PRODUCTS?

- ▶ Leading innovator and manufacturer of marine OEM covers, tops and hardware.
- ▶ ClimaShield® Plus 600 denier, solution-dyed polyester fabric will provide long lasting protection against the sun and other outdoor elements, while providing breathability to allow air to circulate through the cover.
- ▶ Dowco ratchet covers provide an easy-to-use custom fit that seals the boat from the elements while making the boat look great when not in use.
- ▶ All Dowco covers are engineered and reinforced in all the right places for a lifetime of protection and security.
- ▶ Dowco Ratchet Covers are backed by an industry leading five year limited warranty.

### **Exclusive Dowco ClimaShield Plus Fabric: 2x Stronger & 3x More Water Resistant Than Sunbrella**

Dowco's ClimaShield Plus is a 7.5 oz, 600 denier solution dyed polyester fabric that provides superior UV protection and fade resistance. The woven fabric is further enhanced with Durable Water Repellent (DWR), plus a urethane undercoating to increase longevity and durability. The anti-microbial coating makes the material highly-resistant to mold and mildew. This top-quality fabric is highly resistant to shrink or stretch ensuring a tailored and secure fit for years to come; backed by an industry-leading 5-Year Limited Warranty.
