FEATURING THE DOWCO
RATCHET SYSTEM

PREMIUM TRAILERABLE RATCHET COVER

FEATURES DOWCO'S PATENT PENDING COVERLIFT™ POLELESS COVER SYSTEM

DOWCO

PREMIUM RATCHET COVERS

THE ULTIMATE IN FAST & EASY COVER INSTALLATION

Dowco custom-fit covers are easy to install and remove, perfect for trailering, mooring, or storing. Our exclusive ratchet fastening system secures the cover to the boat, eliminating the need for snaps and numerous trailer straps.

NOTHING MATCHES A DOWCO RATCHET COVER SYSTEM:

- ▷ Eliminates the need for snaps on the gunnels
- ▷ Protects the boat's interior from dirt, water, and UV light
- ▷ Specifically engineered for trailering
- ▷ Integrated vents allow moisture to escape while allowing the cover to compress while trailering
- ▷ Access panel with hook & loop closures allow for cleat and fuel fill access
- ▷ ClimaShield® Plus fabric is durable, water-resistant, and breathable with excellent UV & fade resistance, and backed by a 5-year limited warranty

CLIMASHIELD PLUS IS 2X STRONGER & 3X MORE WATER-RESISTANT

Dowco's ClimaShield® Plus is a 7.5 oz, 600 denier solution-dyed polyester fabric provides superior UV protection and fade resistance. The woven fabric is further enhanced with Durable Water Repellent (DWR), plus a urethane undercoating to increase longevity & durability. The anti-microbial coating makes the material highly resistant to mold & mildew. This top-quality fabric is highly resistant to shrink or stretch ensuring a tailored & secure fit for years to come; backed by an industry-leading warranty.

COVER FEATURES

PREMIUM COVER FEATURES AVAILABLE ON SELECT BOATS

COVERLIFT™ WATER-SHEDDING TECHNOLOGY

The all-new, patent pending CoverLift system is an innovative built-in cover support system that means no poles, no crawling under the cover, and no pole failures leading to cover or boat damage. A heavy-duty rope ratchet and woven strap support system is integrated into the underside of the cover. Once the cover straps are attached to the boat, simply pull on the rope ratchet to create tension on the straps underneath. The straps rise up creating a ridged tent effect so that water will run off the cover and not puddle. This system is designed to be used for both storage & towing. CoverLift is only included on select models that have a walk thru windshield.

COVER SUPPORT SYSTEM

Lifting straps & ratchet are integrated into the cover.

COVERLIFT SYSTEM ENSURES WATER RUN-OFF

Straps create a raised tent effect to direct water runoff.

**STRAP CONNECTOR
FASTENS OVER MOUNTING
BUTTON TO SECURE COVER
STRAPS**

EASY TO INSTALL COVERLIFT STRAPS

Simply place the metal strap connectors located on the ends of the CoverLift straps over the mounting buttons fixed to the inside of the gunnel receiver at the stern and bow deck for a secure, positive attachment. Then open the pocket at the bow and tighten ratchet.

MAXIMUM DURABILITY & LONGEVITY

As most experienced boaters know, one of the first things to go on typical covers & tops is the stitching. While many manufacturers cut cost with a cheaper, low-cost thread, Dowco ClimaShield Plus covers and sun tops are sewn with a premium Coats® dabond, continuous filament (CF), polyester thread which is twisted for extra strength & durability. While more costly, this superior industrial thread provides excellent UV, mildew, and rot resistance.

LIMITED 5-YEAR WARRANTY ON PREMIUM COVERS

Alumacraft covers made by Dowco include a 5-year limited warranty, giving you the best overall coverage available. These products are guaranteed to be free from defects in material & workmanship for a period of six years from date of purchase.

This warranty does not cover damage caused by misuse, neglect, accident, or improper installation, allowing the cover to come in contact with chemicals or tree sap, allowing water, snow, or ice to accumulate or pocket, not properly securing the cover or allowing sharp objects to damage cover.
